Congress information

Sessions will start Thursday September 27th in the early afternoon and close on Saturday September 29th at lunchtime.

Scientific program

The scientific program includes the following topics:
- Drug management during pregnancy and lactation
- Fertility in autoimmune diseases
- Hormones and the immune system
- Modulation of the immune system by pregnancy
- Interaction of pregnancy and the rheumatic diseases
- Delivery mode and obstetric outcome in rheumatic diseases
- Offspring from rheumatic pregnancy
- Counselling and practical advices during pregnancy and parenthood
- Reproduction in male patients with rheumatic diseases

Participation

We invite specialists and research fellows in Rheumatology, Obstetrics, Endocrinology and Internal medicine to attend the conference. Health professionals who care for pregnant and breastfeeding patients or counsel pregnant patients with rheumatic diseases are welcome. We encourage to submit abstracts about clinical and experimental research as well as on how to optimize and further develop management of rheumatic diseases during pregnancy.
